TONOPAH JOINS ORDER OF CAMELS

Tonopah Caravan No. 118, Order of Camels, effected temporary organization last evening by choosing W. W. Booth, temporary shiek and Arthur H. Keenan, temporary secretary. The obligation was administered to nearly 200 candidates before adjournment but the ritual features were omitted owing to the coldness of the Alrdome. Another meeting will be held Wednesday at a hall to be designated in an advertisement that will appear in the Bonanza and other papers.

The attendance was larger than the most enthusiastic expected owing to the weather conditions which militated against the gathering. Those who were present, however, manifested the greatest interest in the proceedings and it was evident that when the time comes for the formal induction there will be hundreds in attendance. The meeting was opened by W. W. Booth, acting as chairman, who introduced Judge Mill on B. Moore, shiek of the Reno caravan, who delivered a telling address on the necessity for action on the part of all liberal minded citizens that they might act in concert and apply themselves to securing legislation to repeal the Volstead act and to reconsider the Nevada amendment by submission to a referendum.

L. Dent, deputy state organizer, was present but was kept busy receiving names and issuing receipts that precluded his taking a more active part in the meeting.

The Tonopah Military Band was on hand and discoursed some stirring melodies beginning with that rollicking war song of the American Expeditionary force in all parts of the world, "Hail, The Gaiety of All Here."

Judge Moore in his address took up the theme of the efforts of the Anti-Slavery League to raise a slush fund of \$50,000,000 for propaganda in building up sentiment against the personal liberties of the people by enacting more drastic laws to include tobacco and cigarettes which had been introduced in several eastern states and would soon find their way to the west unless citizens showed their remonstrance that they thought such restrictions belonged to the vicious class of legislation.
